

"Here COVID-19 is widespread. I constantly wash my and my children's hands. We avoid groups by staying at home or chatting under the tree at night."

-Esther

Cameroon, 2021

ShelterBox

A GIFT WITH IMPACT

To: _____ From: _____

This gift of hygiene is especially crucial for displaced families like Esther's who are still facing the threat of COVID-19.

A gift has been made in your honor that will provide families most at risk of contracting COVID-19 with the hygiene items they need to stay healthy.

This simple bar of soap is one of the few ways Esther, who fled to Minawao Refugee Camp, can protect her young family against the spread of the COVID-19 virus. They live in Cameroon, a country with little to no access to vaccines.
