

*"Drinking water sources
were polluted and open wells
were contaminated with flood
water. We had no drinking
water and we had to walk far
to get it."*

*- Minati
India, 2021*

ShelterBox

A GIFT WITH IMPACT

To: _____ From: _____

*This gift of clean water is essential to families like Minati's who've
been affected by extreme flooding or drought.*

A gift has been made in your honor that will
provide a family with a water filtration device
and water carriers to store clean water.

For Minati, an easy-to-use water filter is a
lifeline. It means her family will have clean
water to drink, cook, wash, and stay healthy
when their only available water source has
been contaminated by severe flooding.

\$50

clean water
